

Enang Wisdom (“Weezie”)

Frontend Developer · Web Designer & Product Builder

enangweezie@gmail.com | Abuja, Nigeria | github.com/weezie001 | Available for remote work

Summary

Frontend developer who ships production apps fast — and solo. I've built and launched a live e-commerce store with real payment processing and AI features, plus a stream of client web apps, taking each from a blank repo to a deployed product in days, not months. I write clean, component-driven React/TypeScript, obsess over user experience, and consistently do more with less time. Give me a frontend and I'll own it end to end.

Skills

React.js · TypeScript · JavaScript (ES6+) · Next.js · Tailwind CSS · Vite · Node.js · REST APIs · tRPC · Git/GitHub · Vercel · Responsive Design · UI/UX · AI integration (OpenAI/Gemini) · Payment integration (Flutterwave / Stripe / Paystack)
